

CNY STEM Scholars Program

Scholarships (with internships) for students pursuing select STEM degrees

The CNY STEM Scholars Program supports Central New York students pursuing a college degree in specific science, technology, engineering, or mathematics fields by providing them a scholarship and internship with SRC, Inc., C&S Companies or Carrier Corp.

The CNY STEM Scholars Program was designed in conjunction with Partners for Education and Business (PEB) and the CNY STEM Hub, to encourage students to pursue STEM majors in fields that local companies are looking to hire. Residents of Onondaga, Oswego, Oneida, Madison, Tompkins, Cortland or Cayuga counties are eligible to apply and preference is given to those attending a higher education institution in New York state.

Scholarship applications are due on Feb 29, 2016. Selections will be made in April and students will be notified by May 1, 2016. Contact scholarships@cnystem.com for any questions.

4-Year Scholarship

SRC STEM Scholarship

The three SRC scholarships are for \$5,000 a year for four years (\$20,000 total per student), with an internship after the sophomore and junior years of college. The student must complete at least one internship after their junior year with SRC. Students intending to study computer science, computer engineering, electrical engineering, software engineering, physics, and cybersecurity will be considered. Two scholarships will be focused on minority and female applicants.

Eligibility Criteria

Eligibility is checked each year for the scholarship to continue.

- Cumulative average of 90 or higher
- Major in a SRC-specific STEM field (listed above) & remain in that major
- Participation in summer scholars pipeline program day (summer after first year) and at least one summer internship at SRC after their junior year
- Must be a U.S. citizen
